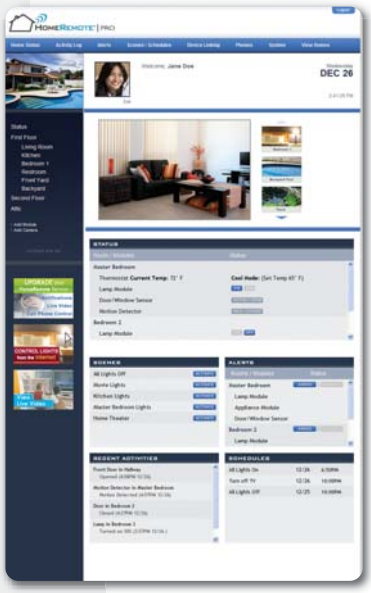
HomeRemote™ Pro Wireless Video Camera

For use with the Homeremote Pro Gateway (required)
Pro-Level™ subscription required to view live video remotely

Add live streaming video to your HomeRemote Pro System. The HRPC1 HomeRemote Pro Wireless Video Camera is an entry level camera that allows you to view live video from the HomeRemote Pro web browser interface or from your cell phone using Cell-Link™*. Unlike standard internet cameras that require complicated router configurations, the HRPC1 features true plug and play installation. Simply plug the camera into one of your router's local ports, log on to the HomeRemote Pro website and enter the product key of the camera. Adding live streaming video has never been easier. The HomeRemote Pro Video Camera includes local video recording software, motion detection with snapshot emails and Wi-Fi capabilities for wireless installations.

Web User Interface



Cell Phone Interface

(Requires Pro-Level Service)
